

Medical Review Volume 3

Filesize: 7.51 MB

Reviews

Completely essential go through book. It really is simplistic but excitement inside the 50 % of the pdf. I am very easily will get a satisfaction of studying a composed book.

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1900 edition. Excerpt: .death. Necropsy showed a much-dilated stomach nearly filling the abdominal cavity. The wall was hypertrophied, especially towards the pylorus, from the surface of which a small pearshaped tumour an inch long arose. This was soft and ulcerating. It completely filled the pyloric orifice. The growth was examined by Dreschfield and proved to be a cylinder-celled epithelioma. Welch considers that the tumour was probably congenital. Ashby and Wright s case (Diseases of Children, 2nd edition, p. 99) was in a child aged 8, who was admitted to hospital complaining of distension of the abdomen. There was no vomiting, tumour, or tenderness. Some months later there was tenderness, and a tumour was felt to the right of the navel. Pain was present. Death followed rapidly. Necropsy showed the duodenum, transverse colon, and stomach matted together. The stomach was dilated, its walls were thickened, and the pylorus just admitted the forefinger. On the cardiac side of the pylorus were two small growths the size of peas, and on the duodenal side there was an irregular cavity, the walls having been destroyed by new growth. Microscopic examination showed the growth to be columnar epithelioma. From the description it would be difficult to say positively that the growth was primary in the stomach. II. Cancer Of The Stomach During The Second Decade.--The writers can find reference to or reports of only 13 cases. 1. Norman Moore s case (Transac. Pathol. Soc. of London, 1885, vol. xxxvi, p. 195).--The patient...
