The legislatures of several other States, more especially Wisconsin and Minnesota, have also repeatedly called the attention of the country to the imperative importance and necessity of making an effort to secure cheap transportation between the Mississippi Valley and the Atlantic Seaboard, by opening up continuous water and steam transportation between the two sections, and more especially from the foot of Lake Erie around the Falls of Niagara, on the American side; and have earnestly and persistently urged the people of the whole country to take measures to secure the opening of that route at the earliest practicable period.
