Reviews

Extremely helpful for all type of folks. It generally is not going to expense a lot of. I found out this book from my dad and i advised this book to find out.

(Melany Goyette)

SPARKING A WORLDWIDE ENERGY REVOLUTION: SOCIAL STRUGGLES IN THE TRANSITION TO A POST-PETROL WORLD

AK Press, United Kingdom, 2010. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book. As the world's energy system faces a period of unprecedented change, a global struggle over who controls the sector and for what purposes is intensifying. The question of green capitalism is now unavoidable, for capitalist planners and anti-capitalist struggles alike. From all sides we hear that it's time to save the planet in order to save the economy, but in reality what lies before us is the next round of global class struggle with energy at the center, as the key means of production and subsistence. There are no easy answers in this battle for control of the world's energy system. *Sparkling A Worldwide Energy Revolution* is not a book of sound bites. It unpacks the seemingly innocent terms energy sector and energy system by situating the current energy crisis, peak oil, and the transition to a post-petrol future within a historical understanding of the global, social, economic, political, financial, military, and ecological relations of which energy and technology are parts. The authors probe the systemic relationships between energy production and consumption and the worldwide division of labor on which capitalism itself is based: its conflicts and hierarchies, its crisis and class struggles. With over fifty chapters written by contributors from approximately twenty countries, *Sparkling A Worldwide Energy Revolution* forms a collective map of the most dynamic struggles within the energy sector. Kolya Abramsky is a former visiting fellow at the Institute of Advanced Studies in Science, Technology and Society, in Graz, Austria, where he received the Manfred-Heindler Award for Energy and Climate Change Research, and in 2006 was coordinator of the Danish-based World Wind Energy Institute, an international effort in non-commercial renewable energy education, involving different renewable energy centers from...
