Full of tricks and do-it-yourself science experiments that will help you understand your world -- the smells, sounds, sights, and other occurrences of "magic" all around us. It's a handbook for your everyday life! Together we'll discover: Why does the scent of eucalyptus wake you up, but lavender calms you down [and which will help you on your next big exam]? Which color makes you work harder and which one makes you happy? How do we get goose bumps? What are the real secrets behind brain freeze, photosynthesis, and rising bread? I'll even show you how to make it rain in your own kitchen! It'll be fun and simple. Because not everything that looks like magic really is.
